NOT FOR HUMAN USE

CMPK

D₃ DRENCH

A Nutritional Supplement for use at Freshening

NET CONTENTS:
354 mL (12 FL.OZ.)

KEEP OUT OF REACH OF CHILDREN
SUGGESTED USE:

CMPK D₃ Drench is an oral Calcium, Magnesium, Phosphorus, Potassium and Vitamin D₃ Supplement for use before and after freshening in Dairy and Beef Cattle, to help maintain normal levels of these nutrients, CMPK D₃ Drench is also suggested for sheep and goats.

FEEDING DIRECTIONS:

Cattle: Feed orally on 12 oz. bottle pre-birthing and additional feedings post-birthing as needed.

Sheep and Goats: Feed 1-2 oz. orally depending on the body weight, pre-birthing and additional feedings post-birthing or as directed by your veterinarian.

Exercise care in feeding to avoid aspiration into the lungs.
Do not feed to animals without swallowing reflex.

PROTECT FROM FREEZING
KEEP IN A COOL DRY PLACE
