SUPERFOODS

Superfoods are unique foods that are particularly high in nutritional value. These ingredients, including kale, chia seed, pumpkin and blueberries, are sources of key nutrients, such as antioxidants, vitamins, minerals, fatty acids and proteins. Superfoods help provide more complete nutrition for your pet.

With 26% protein, 16% fat and added superfoods, All Life Stages Dog Chicken & Rice Formula supplies the energy and muscle building blocks your dog needs to stay active and strong. Guaranteed levels of selenium and vitamin E ensure your dog is receiving optimum antioxidant nutrition, and crunchy kibble helps clean teeth and reduce plaque.

ANTIOXIDANTS

Powerful antioxidants and phytonutrients from superfoods such as blueberries, oranges, spinach and carrots help to support the immune system and a healthy lifestyle.

OMEGA FATTY ACIDS

The superfoods chia seed and coconut, along with added flaxseed, provide the omega fatty acids that are essential for healthy skin, a shiny coat and overall well-being.

DIGESTIVE SUPPORT

A blend of soluble and insoluble fibers from chia seed, pumpkin, dried kelp and coconut, combined with prebiotic fiber from dried chicory root, helps support a healthy digestive system.

WITH CAGE-FREE CHICKEN

Chicken, along with chia seed and quinoa, provides protein for bones and muscles and lots of energy, helping your dog stay active and fit.

VEGETABLES AND FRUITS

Brightly colored vegetables and fruits like kale, blueberries, carrots and papaya provide an excellent spectrum of phytonutrients and an optimal array of vitamins.

NO ARTIFICIAL COLORS, FLAVORS OR PRESERVATIVES

CHANGING TO DIAMOND NATURALS ALL LIFE STAGES DOG CHICKEN & RICE FORMULA

Changing your pet's diet should be a gradual process. Start by adding a small amount of your pet's new food to their current food. Gradually increase the new food amount and decrease the current food amount at each feeding. Continue this method for approximately one week. For sensitive dogs, extend the period to 10 to 14 days.
