Taste of the Wild®

- ★ Unique Animal Protein Sources
- ★ Grain-Free
- ★ Vegetables & Fruits Supply Natural Antioxidants

The balanced diet that nature intended* Modern science proves that your dog shares the DNA of the wolf. Years of domestication and excellent care have turned your dog from a short-lived potential foe to a long-lived best friend. Although his DNA remains the same and his tastes demand something of the wild, his diet should provide him with all the best nutrition available today. Your dog craves a taste of the wild. Go ahead and give him one.

Feeding Guide (cans/day): Amount of food your dog requires will depend on age, activity level, environment and breed. Feed at room temperature and refrigerate unused portion. Keep fresh water available at all times.

Weight of Adult Dog (lbs.)*	Toy (2 - 12 lbs.)	Small (12 - 25 lbs.)	Medium (25 - 50 lbs.)	Large (50 - 100 lbs.)
When feeding canned food only (13.2 oz. can)	¼ - 1¼	1¼ - 2	2 - 3¼	3¼ - 5

*For puppies, feed up to two times the recommended adult feeding amount by body weight. As your puppy gets older, gradually decrease the amounts to near adult amounts.
